

## Worksheet 3

**Create a Poster**

Produce a poster to illustrate your research and preparation of your news story, for a wall display to show others what you found out and to bring together everything that you have learned on how television news is put together.

The poster can include:

- A picture of the newsreader and news reporter, annotated with demographic information
- Graphics, images, fonts and logos used in the programme and analysis of their connotative meaning
- Captions, examples of language used
- Words, ideas and statistics you have learned and used during your research.
