

# BFI National Library Current Periodicals June 2007

## Introduction

This list contains periodicals the BFI National Library is currently receiving.

It does not include newspapers - these are cut for relevant articles which are then either microfiched or filed, the rest of the paper is then discarded.

The entries are arranged alphabetically by title. Information provided includes:

Number of issues per annum  
Publisher address  
Language and country of origin

The few journal titles which are not kept but cut for relevant information are listed separately. Following the alphabetical listing is an index by country of origin.

Due to many of our titles being fairly unusual and often published outside this country there is sometimes a considerable delay in obtaining them. Current means as up-to-date as we can provide. We are always grateful for any information that can help us identify titles that have ceased publication or have changed title or publisher.

Publishers' addresses were correct at the time of publication.
